EPA AND CDH APPROVAL ON TECHNICAL MEMORANDUM 1 - JMK-0144-92

Technical Memorandum 1 contains revisions and responses to comments which were made by the Environmental Protection Agency (EPA) and the Colorado Department of Health (CDH) on the Phase I RCRA Facilities Investigation/Remedial Investigation (RFI/RI) Work Plan for Operable Unit No. 6 (OU 6), Walnut Creek Priority Drainage.

Technical Memorandum 1 was submitted to EPA and CDH on December 16, 1991 for review and comment. As of this date, neither comments nor approval has been obtained from EPA and CDH. A projection of the time schedule for this work indicates if comments/approval are not received by EG&G before March 10, 1992, the resultant delay in the start-up of field operations may not be possible to accommodate. The result could jeopardize the IAG schedule for this work.

We appreciate your efforts in helping us work to meet this schedule and we look forward to receipt of agency response to Technical Memorandum 1. If you have any questions, please contact P. J. Laurin of Remediation Programs at extension 5969.

J. M. Kersh, Associate General Manager
Environmental and Waste Management
